

**42. Jahrestagung der Deutschen Gesellschaft für Massenspektrometrie
8.-11. März 2009 Universität Konstanz
Conference Proceedings**

Dear colleagues,

we would like to invite you to contribute to a special issue on mass spectrometry in the context of the conference of the German Mass Spectrometry Society (DGMS). The special issue will appear in **Analytical and Bioanalytical Chemistry** (www.springer.com/abc). Manuscripts need to be full research papers and present original, unpublished work. All contributions will undergo the usual peer reviewing process by independent referees. The journal's instructions for authors can be found on the ABC homepage at www.springer.com/abc.

Manuscript submission deadline will be May 31, 2009. When submitting the manuscript online at mc.manuscriptcentral.com/abc please indicate that the paper is a contribution for the special issue "DGMS 2009".

Please let us know whether you are interested in submitting new results of your work as a manuscript to the special issue. In this case we would appreciate if you simply send your contact information together with a preliminary manuscript title to abc@springer.com by April 15, 2009.

Looking forward to submission of your manuscripts,

Michael Przybylski
