Fachgruppe Affinity – Mass Spectrometry International Workshop

MSLife:

High Performance Mass Spectrometry: Integrating new Tools & Methods with Applications in Life Sciences

26th - 28th August 2013
University of Konstanz

Main Themes

New tools in Bioaffinity- mass spectrometry
Therapeutic proteins & antibodies
MS approaches in protein interaction analysis
Clinical diagnostics of lysosomal proteins
Ion mobility-MS & new hyphenated methods

Practical courses:

Online-Biosensor- MS in Proteomics and Immunoanalysis
Clinical diagnostics of Lysosomal Storage Diseases

Organizers & Speakers:

Christoph Borchers, Victoria
David Clemmer, Bloomington
Michael O. Glocker, Rostock
Michael Gross, St. Louis
Albert Heck, Utrecht
Claudia Maier, Corvallis
Marilena Manea, Konstanz
Michael Przybylski, Konstanz
Albert Sickmann, Dortmund
