

# Erasmus 2021-2027

## Blended Intensive Programmes

### *Project proposal and outline*

**Academic Year 2024/25**

#### **General conditions of the programme line:**

A BIP is a jointly planned and implemented course/learning format by a consortium of at least three European partners from at least three different countries ([Erasmus+ programme countries](#)) awarding its participants a minimum of 3 ECTS points upon successful completion. The course needs to be made up of virtual as well as in-class/in-person learning elements and there need to be at least 15 mobile participants travelling to the in-class venue from at least two of the three partner institutions. While there is a minimum number of 15 or **10\*** mobile learners set for a BIP, there are no minimum criteria for the number of visiting guest lecturers (as Erasmus+ staff mobility for teaching) or the duration and scope of the virtual learning element. BIPs are open to students of all levels (bachelor/master/doctoral) and also staff members (e.g. Post-Docs as staff mobility for training). For each mobile learner, a BIP receives an overhead support sum of € 400 to prepare and carry out the learning activities.

**\*In Project 2024 a minimum number of 10 mobile learners**

#### **A) U Konstanz as coordinating institution (Project 2024):**

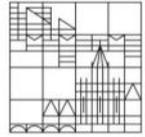

Staff member(s) of a Konstanz Department organizes the event, usually hosts face-to-face events in Konstanz, receives organizational support of € 400 per mobile learner from Erasmus+ funds (not for participants from Konstanz as these are not mobile!). A maximum of € 8.000 will be awarded (even if more than 20 mobile participants come to Konstanz). The home universities of the mobile learners allocates the grants to their own students/teachers through their Erasmus+ funds (these could in fact be from an earlier call).

#### **B) U Konstanz as partner and „sending“ institution (project 2023):**

Staff member(s) of a Konstanz Department is involved in planning a project, arranging the face-to-face event in the country of one of the partner universities. Students of U Konstanz are funded from our Erasmus+ project (Erasmus+ daily rates for short-term blended mobility), Department organizes the application /selection/recognition process, lecturers of U Konstanz accompany the event as Erasmus+ teaching staff (funded through Konstanz Erasmus+ funds). Note: Not eligible incoming Erasmus students to avoid double funding!

#### **Timeline at U Konstanz**

15 <sup>th</sup> February 2024	Deadline for project proposals and outlines of planned BIPs to be considered for Erasmus funding Academic Year 2024/25 (summer 2024 – summer 2025).
approx. July 2023	Funding approval by National Agency DAAD for project 2023 (budget available from June, 2024 until May 2026): depending on allocated BIP budget, internal selection might be necessary
Academic	Implementation of the BIP including virtual teaching units and physical mobility

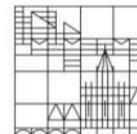

Year 2024/25 <b>10/2024- 09/2025)</b>	phase
afterwards	report by participants and coordinator (online EU-Surveys; invoice of overhead), Grading and Transcripts for external participants/recognition of ECTS for Konstanz students

**Contact:**

Please send project proposals to the Erasmus Coordinator, Angela Argento: [erasmus@uni-konstanz.de](mailto:erasmus@uni-konstanz.de)

*January 2024*

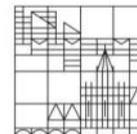

### Outline

Coordinator at U Konstanz (Name, Department, Email)	
Title of BIP (as in ZEuS)	
Coordinating Institution	
Location of physical event	
Schedule	Number of days/meetings virtual phase: Number of days physical phase (without travel min 5/max 30 days): <b>Planned period</b> (e.g. week/month):
ECTS credits (at least 3), part of module in degree	

Short description <i>Content and objectives,          learning outcomes, methods,          target group, form of exam,          teaching language)</i>	
---	--

*Information on the BIP must be published on a website by the coordinating university and anchored in the course catalogue in Konstanz ZEuS (visibility and transparency); Registration, selection and participation criteria must be transparently communicated and documented.*

*If more partner institutions are engaged, please add on different sheet – BUT: we recommend to stick to a consortium of known colleagues.*

The funding of the mobile student participants from Germany to a European programme country is based on lump sums and may not cover the real costs, but should be understood as a partial scholarship.

- Daily allowance € 79/day (as of day 15: 50 €/day) (*new Project 2023 €79/day*)
- Top Up „Green Travel“ €50 + 1-4 travel days depending on distance
- Top Up „Fewer Opportunities“ (first generation students or working students with a salary of 450-800 €/months) or „Special Needs“ (Students with chronic diseases, disability > 20% or single parents): additional €100 + higher travel reimbursement, calculated by distance to venue.

**Lump Sum for Teaching Staff** from Germany to a European programme country within “Erasmus Teaching Staff mobility”, at least 8 hours of teaching/week OR 4 hours of teaching plus 4 hours of training/week, daily allowance depending on host country (€ 140 – 180) and lump sum for travel costs, calculated by distance to venue.

As partner in a BIP consortium, please be aware that

- Other European countries may have **different lump sums or selection criteria** for a mobility to Germany
- **No fees** may be raised for participation in a BIPs – this is an academic cooperation within the framework of the Erasmus+ principles (see Erasmus+ Charter), according to which fees are mutually waived.

**Number of mobilities planned** (*at least 15 mobile learners, we recommend to try and plan with 20 to count in drop-outs. However, we do not recommend to plan courses/BIPS with much more than 20 mobile learners.*)

<i>Partner</i>	<i>Country</i>	<i>Number Students/days p.p.</i>	<i>Number Teachers/days p.p.</i>
Universität Konstanz	Germany		

At least 3 partner institutions from at least three different Erasmus programme countries ([see list](#)).

Budgets for partner countries have to be calculated differently, institutions without ECHE may not be funded.

*Please attach emails from partners confirming their interest to cooperate and encourage students. Also, make sure partners discuss their plans on time with their own Erasmus+ office – time lines for budget applications and available funding may vary at partner institutions.*
