**About the Workshop:**

The Zukunftskolleg of the University of Konstanz and the Martin Buber Society of Fellows at Hebrew University, Jerusalem, are new interdisciplinary institutions designed to foster outstanding early-career researchers. Since their inception, the two institutions have been in contact and sought ways of cooperating with one another.

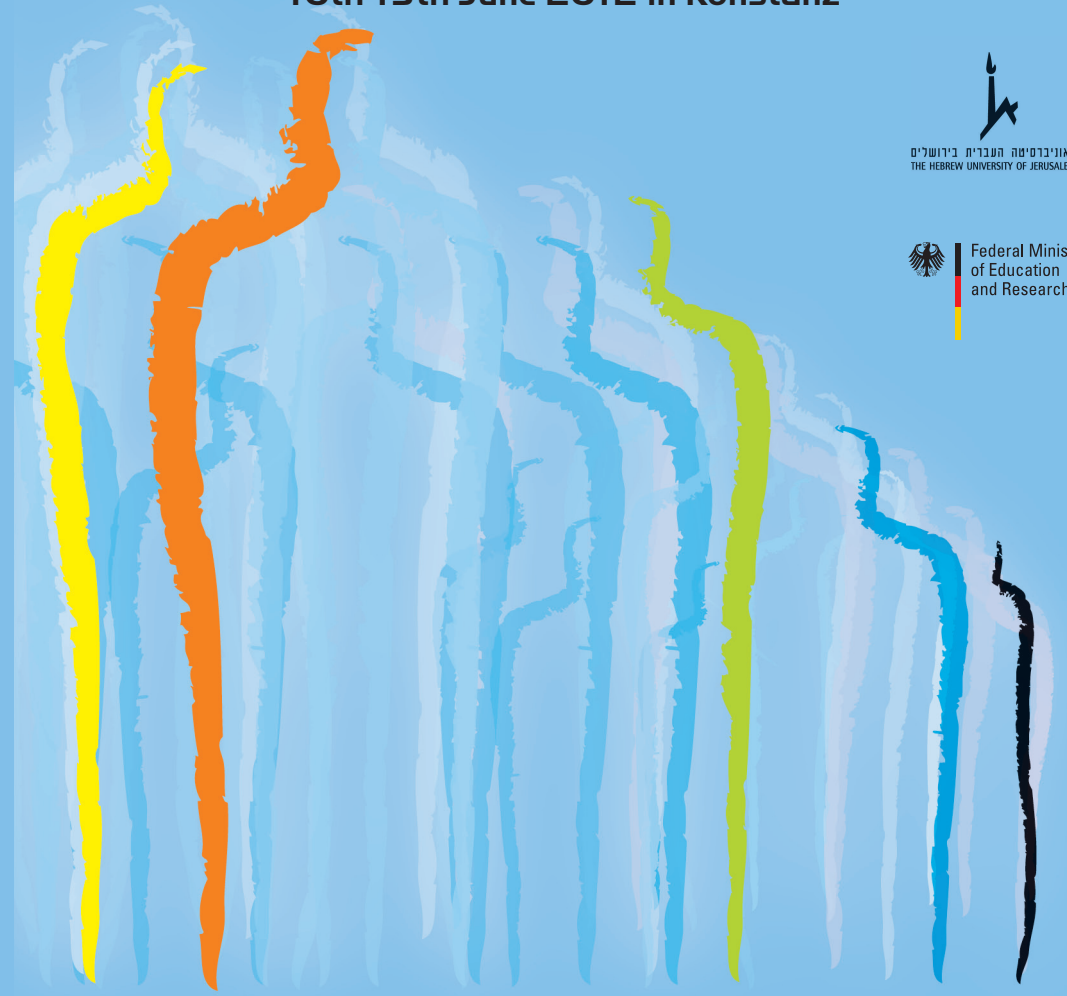

During this workshop we will reflect on the rich concept of "Forgetting" from different points of view and backgrounds of expertise in a spirit of cross-disciplinary communication. There will be parts of scientific exchange and time for social activities. The return visit to Israel is planned for 28th-30th October 2012.
